Korea, "Land of the Morning Calm," with its five thousand years of history is a country rich in culture and natural beauty. A fascinating blend of old and new, visitors can still encounter the essence of the ancient Orient which lingers in the well preserved palaces and temples of a distant era.

Most tourists begin their journey in Seoul, the capital city and the political, cultural, financial and educational center of Korea. Cosmopolitan Seoul offers a wide selection of hotels, restaurants and world class shopping.

Gyeongju, located southeast of Seoul, is steeped in history. Once one of the greatest cities in the world, it was the capital of the Shilla Kingdom (668 - 935AD) and subsequently all of Korea. Today, Gyeongju is a small country town with so many relics from the Shilla era that many call it a "Museum Without Walls."

Busan is Korea's principal port and with a population of 4 million is also Korea's second largest city. Located at the southeastern tip of the Korean Peninsula, Busan enjoys a milder climate than the rest of Korea.

Jeju Island is the honeymoon capital of Korea. Only an hour's flight from Seoul, Jeju Island is blessed with a diverse landscape from rugged mountains to sparkling seas, cascading waterfalls to fantastic lava and rock formations.
